ABOUT ADALYA

A Legacy of Flavour. A Global Identity.

Originating from Türkiye, Adalya has established itself as an internationally recognised name in the shisha tobacco industry. Known for its distinctive flavour combinations and diverse product portfolio, the brand has developed a strong presence across international markets.

Adalya Tobacco became the leader of all the markets where it launched its products and its market share keeps expanding globally. Adalya's name was first recognised in Europe and soon spread to Asia, Africa and America.

With a focus on product consistency, flavour development and manufacturing expertise, Adalya brings together traditional shisha tobacco craftsmanship and contemporary production techniques.

In the Maldives, Adalya has become one of the most preferred shisha tobacco brands, with its signature flavours earning widespread recognition among local consumers and establishing a strong presence in the Maldivian market.

Today, Adalya represents a distinctive identity in the global shisha industry, combining Turkish heritage, product innovation and an extensive selection of flavours.
